

## Ansichten zuordnen

Am Beispiel „Objekt 1“ siehst du, wie die 4 Objekte in die Raumecke gestellt und betrachtet werden.

Ordne in der Tabelle unten den Bildern die richtige Objektnummer und Ansicht zu.

Beachte: Ein Bild ist allerdings irrtümlich dazu gekommen!

Objekt 1

Objekt 2

Objekt 3

Objekt 4

 <p>Objekt 1 von vorne</p>	 <p>Objekt ____ von ____</p>	 <p>Objekt ____ von ____</p>	 <p>Objekt ____ von ____</p>	 <p>Objekt ____ von ____</p>
 <p>Objekt ____ von ____</p>	 <p>Objekt ____ von ____</p>	 <p>Objekt ____ von ____</p>	 <p>Objekt ____ von ____</p>	 <p>Objekt ____ von ____</p>

## Möglicher Lösungsweg

				
Objekt 1 von vorne	falsch	Objekt 4 von vorne	Objekt 2 von oben	Objekt 3 von rechts

				
Objekt 4 von oben	Objekt 2 von rechts	Objekt 4 von rechts	Objekt 1 von oben	Objekt 2 von vorne
